## CPC Projects

### CPC's Home-Grown Network for Childcare (HGNC)

Twenty early learning *Toolkits* were provided to new Family Childcare Home Providers who recently joined CPC's **HGNC**. These *Toolkits* consist of learning activities and manipulatives for various age groups of children in each program. CPC is partnering with *Amplified Therapy*, whose staff share a new learning tool and various ways that it can be used, during monthly **HGNC** meetings.

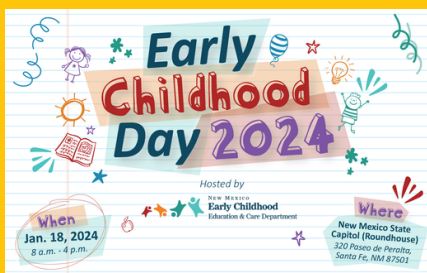

If you take care of children in your home and are interested in becoming a registered provider, check out our website at

## POSITIVE PARENTING TIP

Focus on Connection over Correction

This means prioritizing building a strong and loving relationship with your child over immediately correcting their behavior. When children feel secure and connected to their parents, they're more likely to be cooperative and well-behaved.
